How to sort and dispose of recyclables and garbage.

Encourage SDGs –Think about garbage, change our future–

◇ Go to recyclable rubbish collection day

～ Please sort and dispose of garbage based on their type ～ (see page 5 to 10 for details)

- Go to the rubbish collection day according to their types. The collection date for plastic containers, paper, used cloth is once a week. Cans, bottles and hazardous waste are once a month.(see the collection date calendar to check when it opens)
- Go to "Sunday recycle" twice a month. (see the collection date calendar to check the date and venues)
- Some local organization such as "PTA" and "IKuseikai" collect recyclables and garbage. You can also dispose of garbage there.
- A paper recycling box is installed in the parking lot on the south side of Sakaki-machi city hall every day (including weekends and holidays) from 8:30 to 17:00.

Burnable garbage

Collection date/Twice a week

(See collection date calendar to check it)

What garbage you can take out

kitchen waste

shells, sake lees and

- ◆ Drain fluid from the kitchen garbage.
(See page 3 on how to reduce the kitchen waste.)

Daily necessities

leather products, shoes, piece of trees/leaves/weeds from your garden, toys, carpets (must be the size that fits in a designated bag) videotapes, cassette tapes, CDs, DVDs, etc.

- ◆ please remove the metal parts before you take out.
- ◆ You must cut piece of trees within 10cm when you dispose of it.
- ※ waste disposal companies for disposal of woods and lawns are available. (requires a fee)

Non recyclable paper and used clothes

Dirty wastepaper, carbon paper, / paper (receipt, fax paper, etc.), photographs, jackets, ski wear, etc.

- ◆ See page 9&10 for the details about papers and used clothes.

Others

disposal diapers, ice packs, plastic dishes, buckets, flower pots (made of plastic), etc.

- ◆ flush the dirt of diapers in the toilet.

★ Garbages that do not fit in the designated garbage bag or that weigh more than 5 kg should be brought directly to the incinerator (see back cover) or disposed of as oversized garbage (see page 13).

Take garbage to the collection point by 8 am

Collecting point/Burnable garbage

How to take garbage out

① Be sure to put garbage in a designated bag for combustibles (burnable garbage).

- Write your name on the designated bag with a permanent marker
- Weight should be 5kg or less.
- Garbages that do not fit in the designated garbage bag such as woods and mattress should be brought directly to the incinerator (see back cover) or disposed of as oversized garbage (see page 13).

Write your name on the designated bag

② Drain fluid from the kitchen garbage

※ see page 3 on how to reduce the kitchen waste.

③ Take garbage to the collection point by 8 am

Devide gabage into recyclables and non-recyclables

Plastic containers and packaging, paper and cloth are important recyclable resources. So please do not put it as combustible waste. Let's work together on this

Plastic containers and packaging

Bottles, cups, trays, plastic bags
Styrofoam, shopping bags, etc.

- ◆ See page 7&8 for more information

Paper/Used cloth

"Newspapers, leaflets, magazines, books,
cardboard, paper packs, cloth such as T-shirt, etc."

- ◆ See page 9&10 for more information

How to reduce kitchen waste

Work on "3 kiri"

① Mizukiri (dry out)

Kitchen waste contains a large amount of water. Just drying out will not only reduce the amount of waste but also improve the combustion efficiency of the incinerator.

② Tsukaikiri (use up)

Buy food the amount you can consume before the expiry date to reduce garbage.

③ Tabekiri (eat all)

Eat without leaving any food. If there is a surplus, store it in a freezer.

We encourage you to compost kitchen waste.

Food waste disposer / composting container purchase subsidy system

There is a subsidy system for purchasing food waste disposers and composting containers. We will subsidize half of the purchase price (up to 50,000 yen).

If you purchase it, please submit the application form, invoice (receipt not accepted), and one photo each of the distant view and the close view of the machine to the Residents' Environment Division of the city hall office.

Easy composting with cardboard compost

We also recommend composting using "cardboard compost," which you can easily use at home with cardboard.

Let's practice 3R (Reduce, Reuse, Recycle) and ethical consumption to protect the clean earth.

3R

Reduce

- Do not buy what you do not need.
- Bring your own bag and reduce using unnecessary packaging and plastic bag.
- Purchase environmentally friendly products.
- Reduce food waste

Reuse

- Use up items for repairing or other purposes
- Give it to someone if you do not need.
- Use reusable products and items.

Recycle

- Make sure to separate the garbage.
- Join the local organization (ikuseikai and PTA) that collecting garbage

Ethical consumption

Ethical means morality and ethical consumption mean choosing products and services that are friendly to people, society, and the environment.

◇ Environmentally friendly consumption

- Green purchase is encouraged.
- Purchase wood products and paper that can help forest conservation.

◇ Consumption that aims for people and society's well-being.

- Purchase Fair Trade products (which trade products made in developing countries at reasonable and justifiable prices)
- Buy products produced at welfare institutions.
- Purchase products with donations

◇ locally friendly consumption

- Consume local productions and shop at local stores.
- Support consumption (purchase of products in disaster areas and areas that are suffering from reputational damage).

Non-burnable garbage

Please take garbage to the collection point by 8 am

Collection date / once a month

Collection point / Non-burnable garbage collection point

Please see the garbage/recyclables collection calendar to check the collection date.

What you can take out

Ceramics

pottery (Japanese bowl, teacup, plate, etc.)

- ◆ Wrap fragile items in paper and write "割れ物" on the paper.

Glass

Baby bottles, cups, glass dishes, cosmetics (excluding transparent and brown) bottles, flat glass.

- ◆ Wrap fragile items in paper and write "割れ物" on the paper.
- ◆ Separate lids and caps according to the material

Paint/Paint cans

Paint cans, paint spray cans

- ◆ Use up the spray can and make a hole in the spray can.
- ※ For the remaining paint, contact the dealer or specific vendors (see page 14).

Metals and aluminum

※ For the paper box, take the aluminum cutter and go to "Miscellaneous"

Aluminum foil and Hardware

※ Wrap cutting tools and knives in paper and write "刃物"

※ Dispose of cloth and plastics as burning garbage

Others

Coin cells, light bulbs, LED light bulbs, disposable heat packs, glow lamps, itto-kans, lighters

- ◆ Coin cells must be insulated by sticky tapes.
- ◆ Be sure to leave the lighter empty as it may cause a fire.
- ※ Batteries and fluorescent lights are classified as harmful waste (see page 6)

★ Used small household appliances must be brought to free collection of small household appliances. (See page 11)

Precautions on how to dispose of

Write your name on the designated bag.

Be sure to put it in a designated bag for incombustible (non-burnable) garbage.

- Other bags are not acceptable.
- Write your name on the designated bag with a permanent marker
- The weight should be 5 kg or less.

★ Garbages that do not fit in the designated garbage bag or that weigh more than 5 kg should be disposed of as oversized garbage (see page 13).

Things you may be confused

◆ Spray cans such as hair sprays and pesticides (see page 5)

◆ Mirror is Hazardous waste (see page 6)

Cans, Bottles, Plastic bottles

- Collection date/once a month
- Collection point / recyclables collection point
- Sunday Recycling / Twice a month (see page 15)

What you can take out

Cans

○Metal cans smaller than itto cans

Cans of drinks and food (cans of juice and liquor, cans of salad oil, canned foods, cans of tea, confectionery and seaweed) Spray can / cassette type gas cylinder (Cosmetics, hair styling products, pesticide spray cans, etc.)

※Cans of paint, paint, etc are classified as non-burnable garbage (see page 4)

Bottles

Glass bottles (juice, seasonings, alcoholic beverages, cosmetics (transparent, brown-colored) bottles, household medicine, etc.)

- ◆ Dispose of non-transparent / brown cosmetic bottles as non-burnable garbage
- ◆ Wrap broken bottles in paper and write "割れ物" on the paper.

Plastic bottles

○ Plastic bottles that shows followings

Juice, alcoholic beverages, seasonings, etc.

○ Similar to plastic bottles, there are PVC bottles. PVC bottles are classified as plastic containers and packaging

○ Bottles of oil and detergent are classified as plastic containers and packaging.

PET bottle
The bottom is dented and there is a circle in the middle of the bottom.

PVC bottles
Bottles other than PET
The bottom is flat and no circle

Go to "Plastic containers and packaging"

What cannot be collected

- Cups made of glass
- Cosmetic bottles excluding transparent and brown-colored
- Broken bottles ●Metal lids
- Cans of paint
- Bottles of chemicals and paints
- Bottles with a strong odor and dirt.

●Pesticide bottles ⇒ Go to "Uncollectible Garbage" (page 14)

⇒ See "unburnable garbage"

Hazardous waste such as batteries, fluorescent tubes, etc.

Please see the garbage/recyclables collection calendar to check the collection date.

Precautions on how to dispose of

① Wash cans, bottles, and PET bottles with water.

- Be sure to remove the caps, wine corks / stoppers, and labels. Dispose of the removed metal lid as "non-burnable garbage" and plastic caps and labels as "plastic containers and packaging".

② Crush cans and PET bottles

- You should use up spray cans, cassette cylinders, etc., make holes, and crush them. Also, be sure to remove the spray button. Plastic spray buttons and caps are classified as "plastic containers and packaging".

③ Do not put it in the bag, put it in the collection container. (The bottle is divided into three colors)

- Please return recycled bottles such as beer bottles and milk bottles to the store you purchased.

What you can take out

Batteries

- Thermometer
- Mirror
- Stamp pad (using mercury)

※ Bring coin cells and rechargeable batteries to a recycling store.

Fluorescent lamp tube

- Straight tube
- Round tube

- Other lamp
- Tube type
- Bulb type
- U-shaped type
- Twin-type

Things you may be confused

● LED bulbs, glow lamps, coin battery (insulated), light bulb

⇒ Go to "Non-burnable garbage" (page 4)

● Button battery / rechargeable battery (insulated)(Nickel-cadmium battery / nickel-metal hydride battery / Lithium-ion battery)

⇒ Recycling store, "garbage that cannot be collected" (page 14)

Nickel-cadmium battery

Nickel hydride battery

Lithium-ion battery

Precautions on how to dispose of

1 Put the batteries in the "battery collection box" at the collection point.

2 Divide the fluorescent lamp tubes into straight tubes, round tubes, and other type of tubes into the "fluorescent lamp collection box" at the collection point.
※ If it is broken into small pieces, put it in a clear bags.

Straight type

Round type

Other shaped type

3 Garbage that uses mercury, such as thermometers, mirrors, and stamp pad, should be placed in the "harmful garbage collection box."

Plastic containers and packaging

- Collection date/once a week
- Collection point / recyclables collection point
- Sunday Recycling / Twice a month (see page 15)

Please see the garbage/recyclables collection calendar to check the collection date.

What you can take out

trays/packs/cups

Food containers, packaging of eggs and toothbrush etc.

Plastic bags

Plastic food bags, plastic shopping bags, wraps for product packaging, plastic bottles' labels, etc.

Tubes

Tubes of Toothpaste, mayonnaise, etc

Plastic bottles

Cooking oil, detergent, shampoo, eye drop container, etc.

Others (those without plastic mark)

PET bottle lids, fruit nets, styrofoam boxes, plastic cushioning materials, etc.

What is plastic container packaging?

"Containers" and "packagings" that made of plastics and contained the products.

This mark is a point of reference.

Precautions on how to dispose of

- If there is something other than plastic, such as a price tag sticker, remove it as much as possible.

- Wash dirt with water.
(Those that do not get dirty and those that have a strong odor go to burning garbage)

- Those which are plastic on the front and aluminum foil on the back such as snack packaging or pudding lid are classified as a "plastic container or packaging"

- Please put it in the "collection box" on the collection date.

Things you may be confused

The followings are not "plastic containers and packaging"

Plastic products are classified as "Burning Garbage" (see page 1)

- ×Food storage containers and bags
- ×Lunch Box ×Plastic spoon (fork)
- ×Straw ×Picnic sheet
- ×Hose ×Toothbrush
- ×Plastic hanger ×Bucket
- ×CD, DVD case
- ×Cassette tape
- ×Toy
- ×Cleaning bag
- ×Nylon string / packing band
- ×Flower pot

Use up and go to "Non-burnable garbage" (see page 4)
● Disposable lighter

Cup noodle's lid and container

※ There are "paper" and "plastic" depending on the product. Be sure to check the recycling mark on the product and go to "Paper" (pages 9 and 10) for "paper" items.

Paper and cloth

- Collection date/four times a month
 - Collection point / recyclables collection point
 - Sunday Recycling / Twice a month (see page 15)
 - Recycling box ※ Excluding cloth (see page 26)
- Please see the garbage/recyclables collection calendar to check the collection date.

What you can take out

Newspaper

Flyers in the newspaper inserts

Magazines, books, manga books, notebooks

Miscellaneous paper (including containers and packaging made of paper)

The one with this mark is classified as "paper containers and packaging".

Miscellaneous paper

Envelopes, postcards, plastic wrapping rolls, copy paper, memo pads, leaflets(not flyers in the newspaper inserts), etc.

Paper boxes

The boxes of snacks, cosmetics, cigarettes, tissues, etc.

Wrapping paper

Rapping papers

Paper cups

Ice cream paper cups, cup noodle paper containers, etc.

Lids

The lids of the cup noodle containers and snack boxes, etc.

Paper carton with aluminum foil

Paper cartons of alcoholic beverages and soup, etc.

Others

Paper bags, paper trays (pizza boxes), pudding cups, yogurt cups, pasteboard, etc.

※ You should remove the plastic part from the windowed envelope.

Cardboard

※ The cardboard is the one that the waved-shaped paper putting inside.

Paper carton

※ If the inside is made of aluminum, it is classified as miscellaneous paper.

Clothes

Used clothes

- General clothings (T-shirts, shirts, dresses, blouse, jeans, skirt, etc.)
- School uniform ○ Workwear
- Pajamas ○ Underwear
- Swimsuit ○ Kimono ○ Kimono's band
- Blanket (Any materials are acceptable)
- Mattress cover ○ Sheets ○ Towels etc.

Clothes that are classified as "burnable garbage"

- Wet clothes • Remarkably dirty clothes
- Paper with a strong odor • Carpet
- Entrance mattress • Pillow
- Mattresses (comforters, mattresses, cushions, kotatsu futons, etc.)
- Curtain • Scarf • Tie • Stockings • Gloves
- Hat • Suit • Socks • Coat • Sweater
- Fleece • Fur / leather clothings
- Ski / snowboard wear • Down jacket etc.

See "Burnable Garbage" (page 1)

Precautions on how to dispose of

Newspapers, flyers in the newspaper inserts, magazines, books,

Please classify by the types of the garbage and tie them crosswise with a string.

Wash paper cartons, cut them open, dry them, and tie them crosswise with a string.

Before discarding newspapers, magazines, or cardboard, please remove the following items.

- Adhesive tape
- Metals (clips, staples, etc.)
- Scotch tape
- Aluminum foil
- Plastics
- Plastic bag

Miscellaneous paper

(including containers and packaging made of paper)

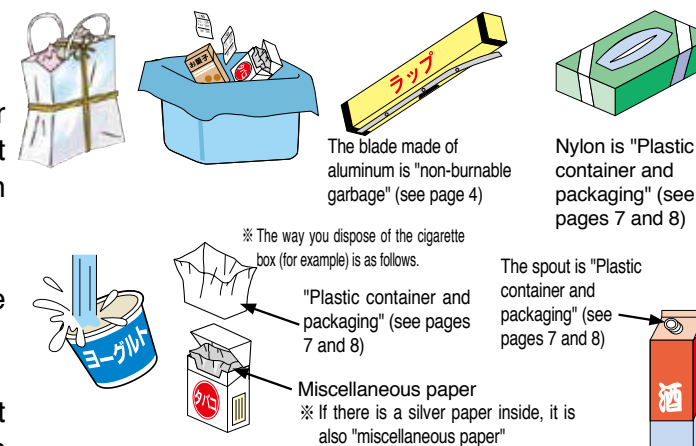

(1) Miscellaneous paper must be put into paper bags or envelopes or strap up and you put it in a designated container on the collection day.

(2) If paper cups, paper trays and paper lids are dirty, you should wash or wipe it off.

(3) Remove and separate those which are not classified as paper, such as the aluminum blade of plastic wrap and the plastic inside the tissue box.

(4) Cartons with aluminum foil inside, such as liquor and yogurt, you should wash and dry before discarding.

(5) If one side is aluminum foil and the other side is paper, such as aluminum foil paper of cigarette or snack bag, it is classified as a "miscellaneous bag".

The blade made of aluminum is "non-burnable garbage" (see page 4)

Nylon is "Plastic container and packaging" (see pages 7 and 8)

※ The way you dispose of the cigarette box (for example) is as follows.

"Plastic container and packaging" (see pages 7 and 8)

The spout is "Plastic container and packaging" (see pages 7 and 8)

Miscellaneous paper
※ If there is a silver paper inside, it is also "miscellaneous paper"

Paper classified as "burnable garbage"

- Thermal paper (receipt, fax paper, etc.)
- Oil paper
- Dirty paper
- Paper with strong odor (such as paper containers of softener or soap)
- Single-use plates and cups
- Back carbon paper/Carbonless copy paper
- Items that are not classified as containers or packaging, such as paper strings.
- Crimped postcard
- Pictures
- Paper in which private information is written.

Clothes

Tie clothes crosswise with a string or put them in a transparent or translucent bag. You bring it to your collection point or Sunday recycling collection point.

- You can discard used clothes and recyclable clothes on the same day and place.
- Please discard used clothes and recyclable clothes after cleaning them. (Dry cleaning is not required.)
- If those clothes may get wet due to rain or snow, you need to cover them with plastic.
- You can bring clothes with buttons or zippers.

Used small household appliances

The collection day is the same as the day of oversized garbage. (free service)

- You can bring used small household appliances on the collection day of "Oversized Garbage" (page 13) and "Sunday Recycling" (page 15).
- Please put it out in the designated collection boxes installed in 4 places in Sakaki-machi. (free service)
 - ⇒ The size of used small household appliances must be 40cm×20cm.

The locations of collection boxes (in Sakaki-machi)

- A-corp Bingushi-ten** 9:30am-8:30pm
- Sakakimachi cityhall** 8:30 am-5:15 pm (Monday to Friday)
- Bunka Center** 8:30 am to 5:15 pm (excluding closed days)
- Katsurao Kumiai** 8:30 am to 5:15 pm (Monday to Friday)

What you can bring

Small electronic devices and home appliances powered by electricity and batteries. The products listed on the Home Appliance Recycling Law are excluded. (TVs, refrigerators, freezers, air conditioners, washing machines, clothes dryers)

※ You can also discard accessories such as AC adapter, cable, plug jack, charger, remote control, etc.

Major items

- Telephones ● Facsimile machine ● Mobile phone and PHS
- Radio ● Jar rice cooker ● Microwave oven
- Digital camera ● Video camera ● DVD recorder ● Fan
- Electric dehumidifier ● Digital audio player ● Stereo set
- Clothes iron ● Vacuum cleaner ● Computer
- Electric kotatsu (electric heating part only) ● Electric stove
- Fan heater ● Kerosene heater (only those using batteries)
- Hair Dryer ● Electric shaver ● Printer
- PC game displays, etc. (excluding TVs)
- E-book reader
- Fluorescent lightings and other electric lighting fixtures
- Electric clocks ● Electronic calculator
- Game consoles and other electronic toys.

※Electric blankets and electric carpets that have plugs are only applicable..

What you cannot discard

- The products listed on the Home Appliance Recycling Law are not eligible. (TVs, refrigerators, freezers, air conditioners, washing machines, clothes dryers) (see page 12)
- You are not allowed to dispose of electronic machinery used in the business entities.

Precautions on how to dispose of

- You must remove batteries, kerosine, and light bulbs before disposing of them.
- You must delete your personal information on your mobile phone or computer before discarding them.

Air conditioner / TV / refrigerator / freezer /Washing machine / clothes dryer (product subject to the Home Appliance Recycling Law)

From April 1, 2001, the Home Appliance Recycling Law (Act on Recycling of Specified Household Equipment) was put into force. The purpose of this law is reducing waste and promoting effective use of resources. Air conditioners, TVs, refrigerators, etc. Freezers, washing machines, and clothes dryers are the subject items of this law.

How to dispose of those items

Please process by the following method. In addition, you are not allowed to bring them to the Chikuma Kankyo Energy Center or the Katsurao Kumiai Hunengomi Shori Shisetu(Katsurao Union Non-combustible Waste Disposal Facility). Also, please note that these items are not classified as "oversized garbage".

When you buy the new one

You bring the product which you want to discard to the store where you purchased it. (Retailers is obliged to take it)

- A recycling fee is required. (Contact below number for further information about recycling fee.)
- A collection and transportation fee might be required. (Please contact retailers for further information)

When you want to dispose of it because it is old or unusable

1.You bring the product which you want to discard to the store where you purchased it.

- A recycling fee is required. (Please check the contact information below for the recycling fee)
- A recycling fee is required. (Contact below number for further information about recycling fee.)
- If the store you purchased is "closed" or "far away", please refer to 2 to 4 below.

2.You bring it to Sunday Recycling / Oversized Garbage Collection Venue, which is held twice a month.

- Collection dates and venue are on the garbage collection calendar, website of Sakaki-machi or Koho Sakaki.
- A recycling fee (please contact below number for the recycling fee) and a collection and transportation fee (1,000 yen) are required.

3.Carry it to the designated pick-up point (see the table below) by yourself.

- Pay the recycling fee at the post office (please contact below number for the recycling fee) and receive the "Home Appliance Recycling Ticket".
- Carry the waste home appliances to the designated collection point. Make sure you bring "Home Appliance Recycling Ticket" together.

4.Request a collection and transportation company licensed by Sakaki-machi to pick it up at your home.

- Pay the recycling fee at the post office (please contact below number for the recycling fee) and receive the "Home Appliance Recycling Ticket".
- Request a collection and transportation company licensed by Sakaki-machi to pick it up at your home.(Please refer to the Sakaki-machi website or contact the Residents' Environment Division of the government office for licensed contractors. You can also contact to contractors for further information)
- Make sure you bring "Home Appliance Recycling Ticket" together when collecting and transporting them.

Designated collection point

Please contact each company to check their opening hours.

Designated collection point	Address	Phone number
Fukasawa Sangyo Co., Ltd.	2060 Amenomiya, Chikuma-shi	026-272-2727
Koyanagi Sangyo Co., Ltd.	1184-3 Netsu Aza Sunada, Tomi-shi	0268-71-7155
Tokai Seino Transportation Co., Ltd. Nagano Torihikijo	240-1 Muranishi, Kawai, Mashima-machi, Nagano-shi	026-214-7556

About recycling fee for each item

■ Contact information : Kaden Recycle Ken Center

Telephone number : 0120-319640 (toll free number) 03-5249-3455 (requires a fee)

Opening hours 9:00 am to 6:00 pm (closed on Sundays and holidays) Homepage : <https://www.rkc.aeha.or.jp>

Oversized garbage Requires a fee

The collection date / twice a month

Please see the garbage/recyclables collection calendar for each collection date and location.

● The collection time is from 8:30 am to 10:00 am at each venue. Only the household garbage is collected.

What is oversized garbage?

● Garbage that does not fit in the designated garbage bag.

● Garbage that weighs more than 5 kg.

※ Used small household appliances should be brought to the free collection points. (see page 11)

※ All of resin's corrugated sheets are classified as oversized garbage.

What you can bring

- Tires
- Stove (excluding electricity or batteries-powered)
- Futon
- Metal barrel
- Sash (wooden/glass)
- Carpet
- Gas range
- Water heater
- Bicycle
- Bed
- Sofa
- Unicycle
- Electronic organ
- Oil boiler
- Skis
- Wooden furniture

- Solar-powered water heater
- Mower
- Cultivator
- Trolley
- Battery
- Accordion folding curtain
- Corrugated sheet resin
- Costume case
- Mattress
- Golf set
- Cultivator
- Child car seat
- Walker
- Portable toilet
- Doghouse
- Tripod
- Rod etc.

※ Please contact the Environmental Protection Section regarding items not listed.

Door-to-door collection / direct collection

Door-to-door collection

- If you cannot carry oversized garbage by yourself, the contractor will go directly to your home and pick it up. The oversized garbage disposal fee and a collection fee are required. For more information, please contact the Environmental Protection Section.

Direct collection

- If the size of one side of the burnable garbage is within 1.0 x 1.5 x 3.0 m, you can bring it directly to the incinerator (see the back cover) and dispose of it (requires a fee).
※ If there are metal parts, it is not acceptable.

Garbage not acceptable

Items which are difficult to dispose of and industrial waste cannot be collected. You are required to contact the contractor.

Consultation counter for items that are difficult to dispose of and industrial waste

Items	Consultation port
<ul style="list-style-type: none"> ● Agricultural waste (plastic) ● Unnecessary pesticide ● Used pesticide container 	Dealer or JA Naganochikuma Nanbu Agri Support Center ☎ 0268-82-2425
● Medical equipment such as injection needles	Medical institution
● Propane tank	Dealer or professional contractor
● Cans that paint is still remaining	Dealer or professional contractor ※ If the amount of paint is a little, adsorb the paint on paper or cloth and dispose of it as burnable garbage, and dispose of cans as non-burnable garbage.
● Hazardous chemicals	Dealer or professional contractor
● Industrial waste	Industrial waste disposal company ※ Check the prefecture's website for industrial waste disposal companies.
● Construction waste	Industrial waste disposal company ※ Check the prefecture's website for industrial waste disposal companies.
● Gasoline / kerosene	Dealers (gas stations, etc.)
● Button cell	Insulate and bring it to the recycling store ※ Please check the website of Ippanshadan hojin denchi kogyokai (The Battery Industry Association) for more information.
● Rechargeable battery	Insulate and bring it to the recycling store ※ Please check the JBRC website for more information.
● Motorcycles	Designated collection point or disposal motorcycle dealer ※ For more information, please contact the Motorcycle Recycling Call Center ☎ 050-3000-0727.
● Fire extinguisher	Recycle by the following methods

Method 1 Bring it to the designated collection point. (requires a fee)
Collection point: Naotomi Shoji Co., Ltd. 3397-6 Mamejima, Nagano City ☎ 026-222-1880 (Representative)

Method 2 Bring it to a contractor or request picking up service. (requires a fee)
Contractors : Please check the website of Shokaki Recycling Suishin Center (the Fire Extinguisher Recycling Promotion Center) or contact the Environmental Conservation Section.

Method 3 Request collection by "Yu-Pack".(requires a fee) Call center

Caution Fire extinguishers for households produced after 2010 have a recycling sticker.
If it is not there, you should purchase and put it. (you can purchase it at a designated pick-up location or specific window.)

● Please contact the Shokaki Recycle Center Co., Ltd. or the Environmental Protection Section for more information.

If you are not sure about how to dispose of it, please contact the Environmental Protection Section.

Sunday Recycling "For free"

"Sunday Recycling" is held on the same day as an oversized garbage collection day.

Twice a month from 8:30 am to 10:00 am

Collection dates and venue are on the garbage collection calendar, website of Sakaki-machi or Koho Sakaki.

What you can take out

- Bottle (including transparent / brown-colored / others), Cans, PET bottles
 - Plastic containers and packaging
 - Paper (newspapers, flyers in the newspaper inserts, cardboard, paper packs, magazines, miscellaneous items)
 - Cloth ● Hazardous waste ● Used small-sized household appliances
 - Home appliances listed on the Home Appliance Recycling Law (TVs, air conditioners, refrigerators, freezers, washing machines, clothes dryers)
- ⇒ Recycling fees and transportation fees are required. (See page 12)

※Burnable and non-burnable garbage cannot be collected.

Collection points

- Sakaki Town Hall Kitagawa (North) Parking lot
 - Sakaki Junior High School Minamigawa (South) Parking Lot
 - Nisseijushi Industry Co., Ltd. Parking lot ● Bingushi Yusankan Daiichi Parking lot
- The collection points are circulated at 4 locations on a monthly basis.

List of recycle marks

Recycling symbols of containers and packaging required by law

Beverage cans

Each material is labeled on the surface of the beverage containers. Aluminum cans and steel cans can be easily distinguished.
⇒ you can mix them out if you dispose of them in Sakaki-machi.

PET products

PET products are bottles for beverages, alcoholic beverages, seasonings, etc which show "PET products" on their surface.
⇒ The labels and caps are classified as "Plastic containers and packaging".

Plastic containers and packaging

It is printed on plastic containers and packaging except for PET bottles.

Paper containers and packaging

This symbol is printed on paper containers and packaging except for corrugated cardboard and non-aluminum coated paper packs.
⇒ In the collection point in Sakaki-machi, please bring it as "miscellaneous paper".

Other symbols which are written on the containers and packaging.

Paper cartons

It is printed on paper cartons of aluminum-free beverages and alcoholic beverages.
⇒ Please bring them separately from the "miscellaneous paper". (See page 10)

Cardboard

It is printed on the cardboard container and packaging.
